Hi Jay,

No word yet. Unfortunately, this is an issue that is completely out of my control. I have spoken with my supervisor again to see if he can get this case moved up on this list, but no updates yet.

If you would like to discuss this further, please call Greg Schweer at (202) 564-8469. Otherwise, I will let you know as soon as there is an update on the status.

Best regards,
Bethany

Did you get any word on our PMN last week, is there any more we can do to move forward? We have two customers ready to purchase immediately.

Thank you,

Thanks for the quick turn around on this! Let's touch base a week from today. Of course, if I hear something before then, I will let you know.

Dear Bethany,

Thank you for the help you have been on our case and I understand the recent shake-up at EPA has caused additional delays to the processing of PMNs. I believe our case deserves some special considerations due to the favorable environmental impacts our product offers. [REDACTED]

[REDACTED]

will be depleted within the month. They are pushing us to begin production beyond R&D/market development quantities of our [REDACTED]. Any assistance in moving our case forward would be appreciated. Thank you
